Judging:

The artistic criteria and technical criteria scores will be added together and the deductions will come from that total. The final score will be announced for placement.

Failure to submit required documents, music, costumes and payment on time will result in a penalty point deduction of 5 points per occurrence with a maximum of 20 points from the final score.

Artistic Section:

Capacity of expression, stage presence, fluidity of transitions, floor work, costume, music, and consistency of the choreography. The routine should be well balanced with flexibility tricks, strength tricks, spins and dynamic movements and an equal use of the poles. The goal of the classique division of US Pole Sports Federation is to showcase the sensual side of pole, with a focus on fluidity, graceful strength, and flexibility. This is not a venue for raw sexuality, but rather the seductive beauty of movement and dance on and around the pole.

When creating your routine, it is encouraged that there is a balanced use of both pole and floor. You are required to complete two 30 second (Minimum) pole passes without touching the floor. There is not a height requirement for use of the pole.

Musicality:

- Intensity and dynamic elements: alternation of intense and quiet moments in the music and in the dance.
- Costume should correspond to the performance and to the theme of the choreography.
- Movement and music have a cohesive relationship while expressions accurately reflect the music.

Props:

All props must be approved in advance. Please send an email to athletechair@usapolesports.org with a picture of your prop(s) no fewer than 30 days before the competition date.

Participant may not use a prop to complete a majority of their routine. For example, if you use a chair for your performance as prop it must be just that and not be used as the main performance apparatus. You will also have points deducted if the participant uses the chair for more than 30% of their routine. This is a pole competition and we expect you to use the poles as the main performance apparatus.
